Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims are considered to distinguish over the prior art of record for the reasons presented by applicant in the "Remarks" of his amendment filed on 12/05/2005. Claim 31 is further considered to distinguish over the prior art of record and especially the patent to Sakabe et al. (3,665,149), because it calls for the background current circuit to include, among other features, a "filter network". Although choke 7 in the patent to Sakabe et al. (3,665,149) could be considered a filter, it is not a "filter network" at least because it is comprised of a single element and it is not a filter network for the background current circuit in the sense of this term as used by applicant and discussed in the 12/05/2005 remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Clifford C Shaw at telephone number 571-272-1182. The examiner can normally be reached on Monday through Friday of the first week of the pay period and on Tuesday through Friday of the second week of the pay period.
